The holder of a National Certificate (Information Technology and Computer Science) Level 4, would be able to:

- Test programmes and software applications
- Write computer programmes
- Install network cables for computer systems
- Process computer data
- Develop, research and document computer user requirements

The National Certificate (Information Technology & Computer Science) provides an opportunity, with further study, to access careers in the following fields:

- Computer programming
- Information technology management
- Computer systems engineering
- Data processing

SUBJECTS

Fundamental Subjects:

There are three fundamental subjects which form the basis of each of the National Certificate (Vocational) qualifications:

- English (First Additional Language)
- Mathematics or Mathematical Literacy
- Life Orientation

Vocational Subjects:

In addition to the three fundamental subjects students are required to complete four vocational subjects towards a National Certificate (Information Technology & Computer Science) Level 2:

- Introduction to Information Systems
- Electronics
- Introduction to Systems Development
- Contact Centre Operations
